CAREER SUMMARY

Cybersecurity Specialist with strong experience advising organizations on the design, implementation, and improvement of cybersecurity GRC programs aligned with Saudi regulatory frameworks (CST, NCA – including ECC, CCC, CCCC, OTCC, and DCC – SAMA) and international standards (ISO 27001, ISO 22301, ISO 27017, ISO 27018, SOC 2, CSA STAR, PCI-DSS, DCOS-3). Proven ability to assess compliance posture, address control deficiencies, and support organizations in strengthening audit readiness and regulatory alignment. Experienced in conducting risk assessments using ISO 31000 methodology, building and maintaining cybersecurity risk registers, performing business impact analysis, and driving risk treatment plans through to closure. Brings practical exposure to digital forensics, incident response, red teaming fundamentals, and security awareness initiatives, supported by a solid technical background in firmware engineering.

SKILLS

- Confident in handling fast-changing priorities – “throw anything at me, and I'll get it done.”
- International Standards: ISO/IEC 27001, ISO 22301, ISO 31000, ISO 27017, ISO 27018, SOC 2, CSA STAR, PCI-DSS, DCOS-3 Implementation & Consulting
- Cybersecurity Governance & Regulatory Compliance (CST, NCA, SAMA)
- Risk Management: enterprise risk assessments, risk register development, risk scoring, treatment tracking, and executive risk reporting
- Business Impact Analysis (BIA), RTO/RPO determination & Business Continuity
- Third-Party & Vendor Risk Management
- Compliance Gap Assessments & Remediation
- Audit Readiness & Evidence Management
- Security Awareness & Training Programs
- Disaster Recovery

PROFFESIONAL EXPERIENCE

Cybersecurity GRC Specialist - NOURNET Nov 2024 – Present

- Lead compliance initiatives for CST, NCA (ECC, CCC, CCCC, OTCC, DCC), and SAMA frameworks, including gap assessments, control implementation, and audit readiness.
- Built and led SOC 2 audit engagement from scratch – scoping, control mapping, evidence collection.
- Deliver consulting services for ISO/IEC 27001, ISO 31000, ISO 27017, ISO 27018 and ISO 22301 implementation and certification readiness.
- Develop and implement cybersecurity policies and procedures aligned with regulatory and international standards.
- Conduct cybersecurity risk assessments using ISO 31000, including threat identification, likelihood/impact scoring, and residual risk evaluation.
- Build and maintain cybersecurity risk registers with risk categorization, owner assignment, and treatment plan tracking aligned with NCA ECC requirements.
- Perform business impact analysis (BIA) to identify critical systems and inform risk-based prioritization for continuity and recovery planning.
- Prepare and manage compliance deliverables, evidence packages, and audit documentation for internal and external audits.
- Perform third-party risk assessments and vendor compliance reviews against regulatory requirements

Cybersecurity Specialist – Cybersecurity Club (UPM) Jul 2022 – Jun 2024

- Designed and implemented technical exercises leveraging **Python, Java, C++, and JavaScript** to simulate real-world attack and defense scenarios.
- Led Capture The Flag (CTF) competitions and hands-on labs to build practical cybersecurity skills among participants.

Cybersecurity Forensic Investigator - Ministry Of Interior Jan 2023 – Dec 2023

- Supported sensitive digital forensic investigations, working under strict confidentiality on high-impact cases.
- Prepared and submitted comprehensive forensic reports to confidential committee members for investigative use.
- Handled evidence acquisition, preservation, and chain-of-custody documentation in line with legal protocols.

EDUCATION

Bachelor of Cyber Security & Digital Forensics 2024
University Of Prince Muqrin , Saudi Arabia

PROFESSIONAL CERTIFICATION

- | | |
|---|------|
| • ISO 31000 Lead Risk Manager (PECB™) | 2025 |
| • Integrated Compliance & Ethics Professional (ICEP™) | 2025 |
| • Integrated Audit & Assurance Professional (IAAP™) | 2025 |
| • Certified In Cybersecurity (CC) ISC² | 2025 |
| • Integrated Policy Management Professional (IPMP™) | 2025 |
| • Integrated Risk Management Professional (IRMP™) | 2025 |
| • Integrated Artificial Intelligence Professional (IAIP™) | 2025 |
| • Certified GRC Professional (GRCP™) | 2025 |
| • Integrated Data Privacy Professional (IDPP™) | 2025 |
| • Certified ISO/IEC 27001 Lead Auditor | 2025 |
| • Certified Red Team Analyst (CRTA™) | 2025 |
| • Certified GRC Auditor (GRCA™) | 2025 |
| • MITRE ATT&CK Defender™ (MAD) | 2024 |
| • Cyber Threat Intelligence™ (ARCX) | 2023 |
| • Networking Essentials (Cisco Networking Academy) | 2022 |

RESEARCHES

- | | |
|---|------|
| • GRC Expert — AI-Powered Cybersecurity Compliance Assistant Self-Initiated Project | 2026 |
| • شافية (Shafee) — RAG-Powered Quran Research Assistant Self-Initiated Project | 2026 |
| • Enhancing SOC Level 1 with AI | 2025 |
| • Traffic Signal Security AI | 2024 |
